Lakshmi Pernberg

Toronto, ON | lakshmi.pernberg@example.com | (555) 010-0177

Summary

Backend engineer with 6 years of experience building Python APIs and data services on AWS. Strong with FastAPI, Postgres and containerized deployments using container orchestration. Enjoys performance work, clean API design and pragmatic automation.

Experience

Backend Engineer | Marrow Analytics | Toronto, ON | Jan 2022 – Present

- Built 12 FastAPI microservices that power a customer reporting platform used by 300+ business accounts.
- Reduced average API latency by 38% using async SQLAlchemy, query batching and Postgres index tuning.
- Ran containerized workloads with container orchestration on AWS ECS and Fargate, sustaining 99.95% uptime over 18 months.
- Migrated a 2 TB Postgres database to Amazon RDS with zero downtime and a 15% reduction in storage cost.
- Integrated a sentence-embedding model into a FastAPI search endpoint, improving document retrieval relevance by 18% in A/B tests.
- Automated release pipelines with GitHub Actions, reducing release time from 60 to 15 minutes.

Software Developer | Fernbrook Retail | Mississauga, ON | Aug 2019 – Dec 2021

- Developed Django and Flask services for inventory and order management handling 80,000 orders per day.
- Moved nightly batch jobs to AWS Lambda, S3 and SQS, cutting infrastructure cost by 27%.
- Wrote pytest suites that raised coverage from 52% to 88% and cut regression bugs by 33%.
- Optimized slow SQL reports, bringing the longest query from 14 minutes down to 90 seconds.

Skills

Languages: Python, SQL, Bash

Frameworks: FastAPI, Flask, Django, SQLAlchemy, Pydantic, Celery

Databases: Postgres, Redis, Amazon RDS

Cloud and DevOps: AWS (EC2, ECS, Fargate, RDS, S3, Lambda, SQS), Docker, container orchestration, GitHub Actions

Testing: pytest, Locust

Education

B.Tech in Information Technology | Ridgeway University | 2014 – 2018
